

HH:G

Wm. Grover

Very sincerely yours,

I have asked Mr. Grover to be the Director of the Library next year, so that he can start upbuilding on the outside, but I presume he will want you to be completely in charge of the management of the Library and to help him in every way with its upbuilding.

However, Dean Cartothers and Mr. Grover have talked the matter over with me and I am sure if you will consent to come, it will be an auspicious arrangement for all concerned.

I deeply regret that I have been unable to find you in when I have called to see you for I wanted to talk over with you the possibility of your becoming our Librarian at Rollins next year.

My dear Miss Brumbaugh:

Miss Olive Brumbaugh,
